

Medworks Performance Guarantee

The quality, service and value of our business relationship is extremely important to Medworks Management. Medworks continuously strives to insure customer satisfaction and is committed to providing performance guarantees so you know you will get exactly what you are paying for.

Medworks is so confident of our people, processes, practice management expertise, and technologies that we will guarantee a positive financial outcome, inclusive of our net-fee. *Specifically, as a condition of maintaining an ongoing Billing Services Agreement, Medworks will guarantee that our performance will increase collections by more than the dollar amount of our net-fees, and decrease days in Accounts Receivable.*

Our offer is contingent on a financial analysis performed by Medworks encompassing recent billing history and practice cost structure.
